## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 6-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 03/072619.

3. This patent shows the copolymerization of monomers, latex compositions and dip molding, see the abstract and page 1. The claimed monomers are discussed at pages 6-8. The specifically claimed process is rendered obvious from the examples. The examples show stepwise addition of selected proportions of monomeric constituents. One of ordinary skill would find it obvious to manipulate the stepwise addition of monomers and optimize the desired properties.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter D. Mulcahy whose telephone number is 571-272-1107. The examiner can normally be reached on Mon.-Fri. 8-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
